

**Feminist spaces in the
network society -
Engendering resistance**

Gender neutral citizenship

- Mainstream media: gender neutral voice as objective and fair.
- Marginalised woman's rights in citizen right movement: sexual violence as private, sexual orientation as health issue.
- Citizen reporter project: along the line of "public" and "private", male voice that excludes female experience.

Technological determinism

- Techno-power myth: The yes you can! era
- Digital divide strategy: capacity building without politics (community center's strategy - never ending adult training)
- Techno-info-activism: the non-event of Jasmine protest

On feminist strategies

- Women citizen reporter project:
Community building vs public engagement, feminist counter public missing
- Relation with the authoritarian state

Feminist in a Grass Mud Horse (Counter) Public
